Software Engineering & Project Management (SEPM)

Energy & Utility Management System (EUMS)

Billing, metering and customer service for electricity, water and gas

User Interface Screens

Software process model: Waterfall · Combined SEPM + DBMS course project

Group number	Group __
Course and section	Software Engineering & Project Management (SEPM), Section __
Supervisor / instructor	Prof. _____
Institute	_____ Institute of Technology
Date	October 2026

#	Name	Registration number
1	Sumit P Surendran	20243590
2	Sreethan Reddy	20243550
3	Sushrut Lad	20243551
4	Viswajith	20243559

1. User Interface Screens

The prototype is the working application itself. Each feature has its own page. Admin and employee pages share the staff portal (employees do not see Employees, Tariffs and Reports); customers have a separate portal.

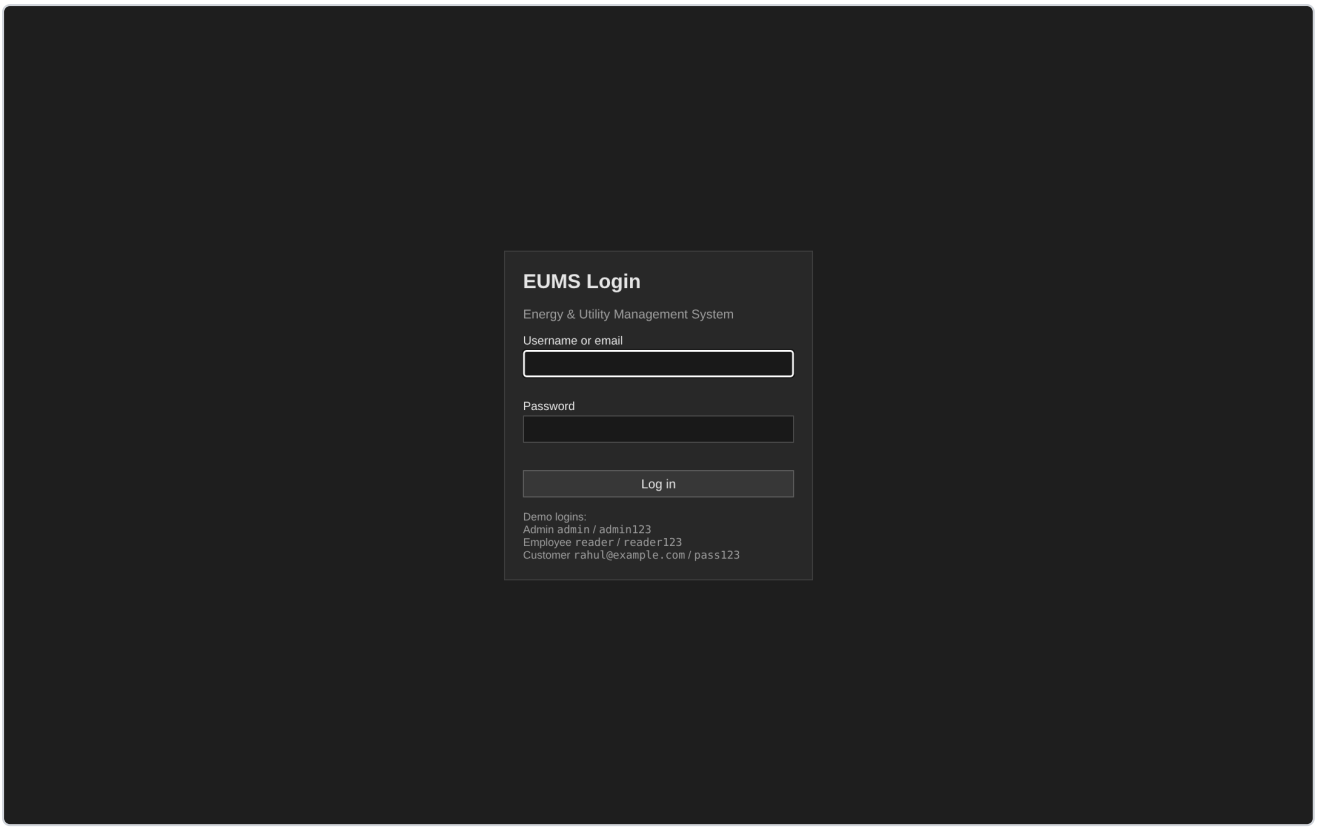

Figure 1: Login page with demo accounts

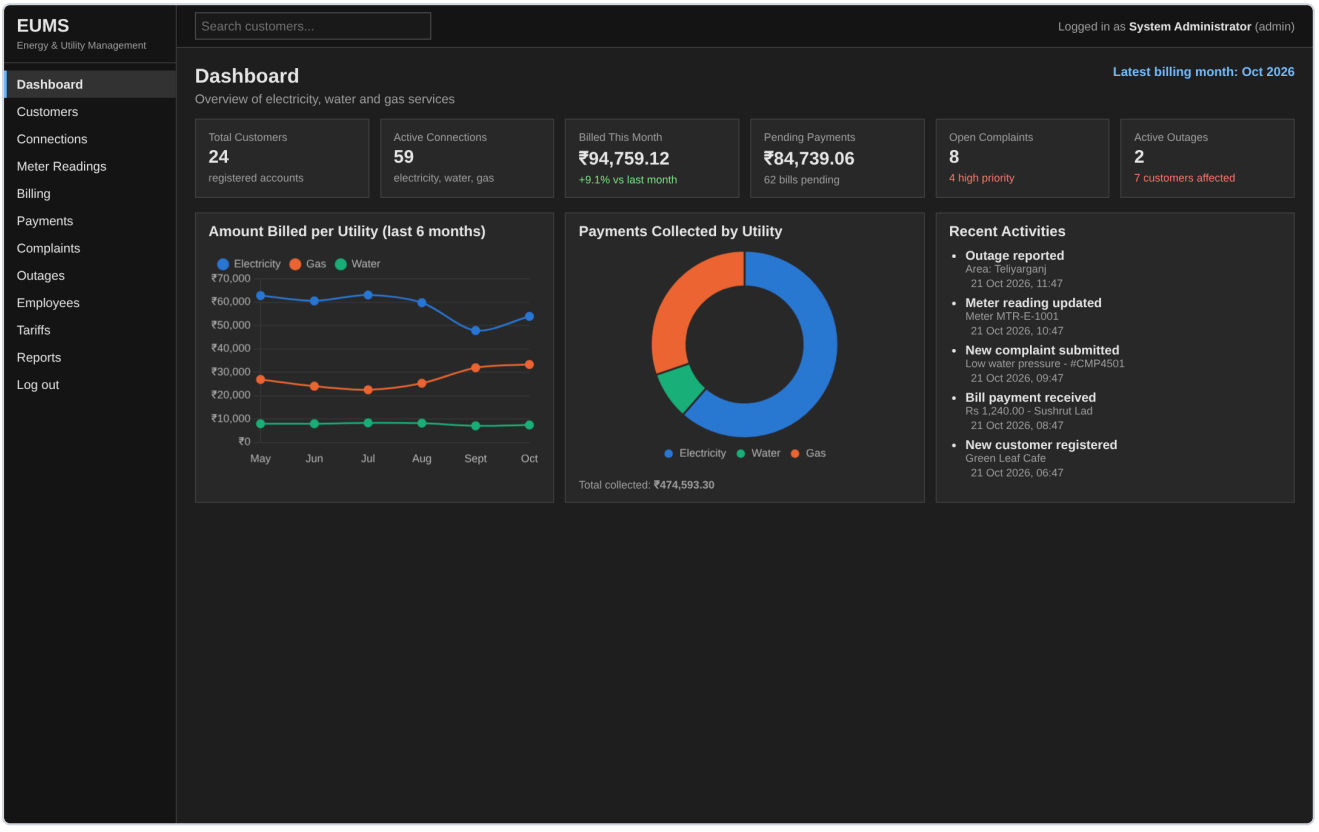

Figure 2: Admin dashboard: KPIs, billed amount per utility, collections, recent activity

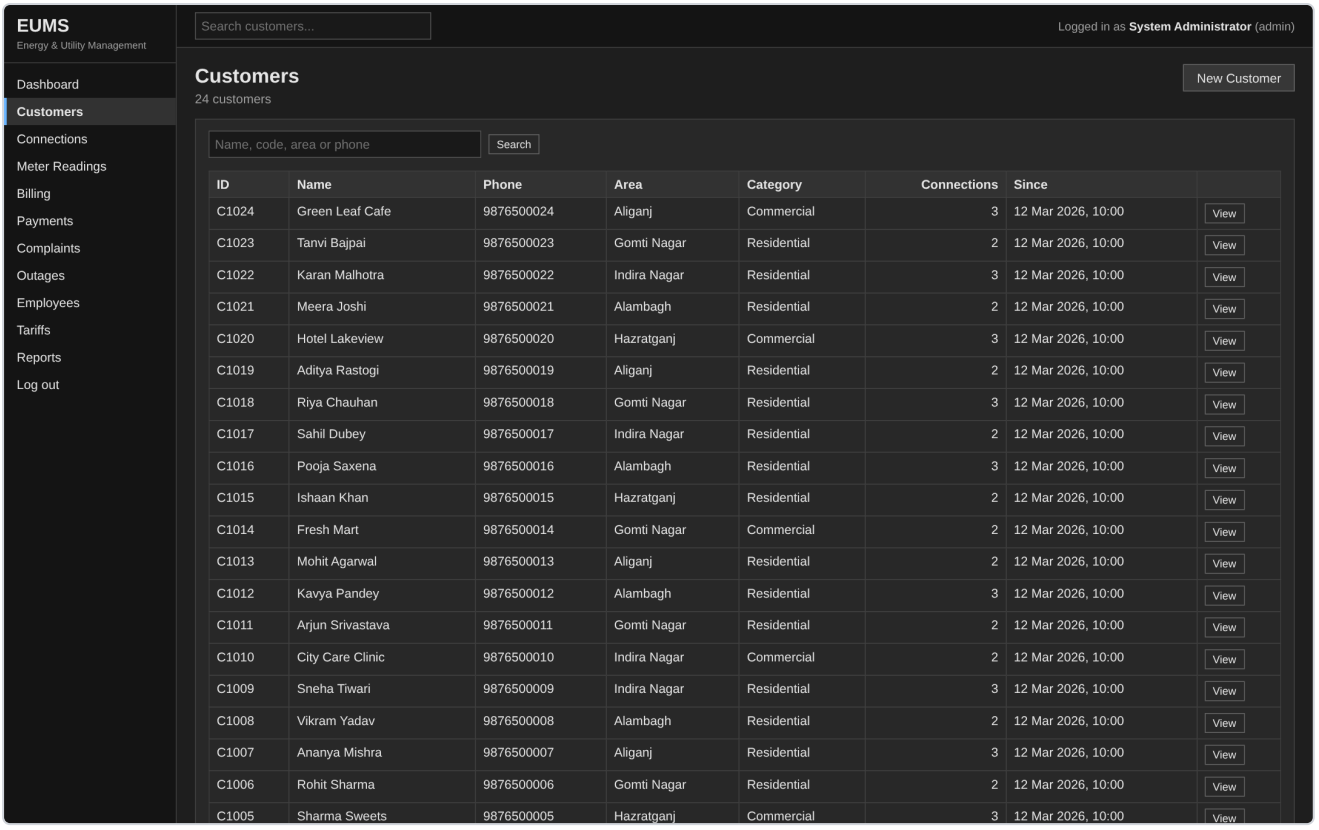

Figure 3: Customers list with search

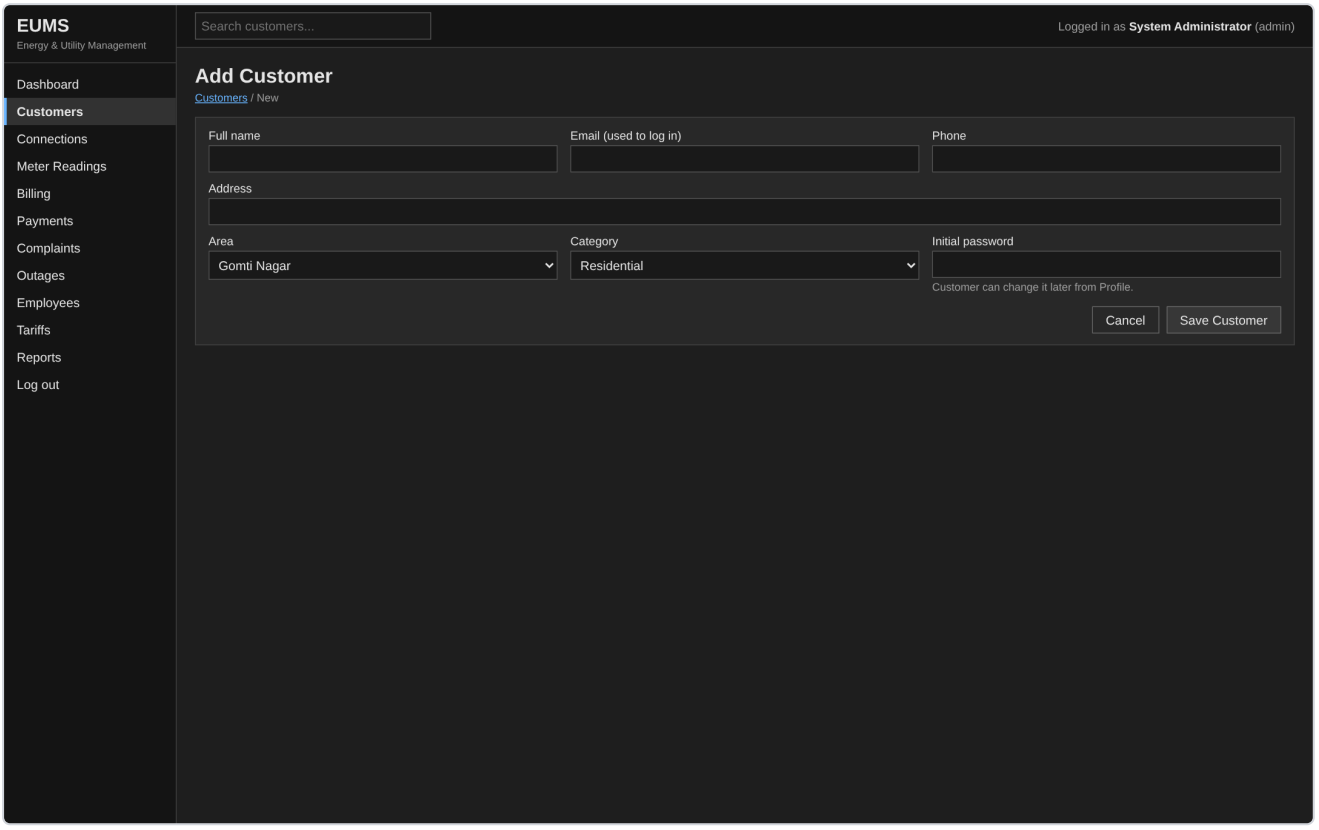

Figure 4: Add customer form

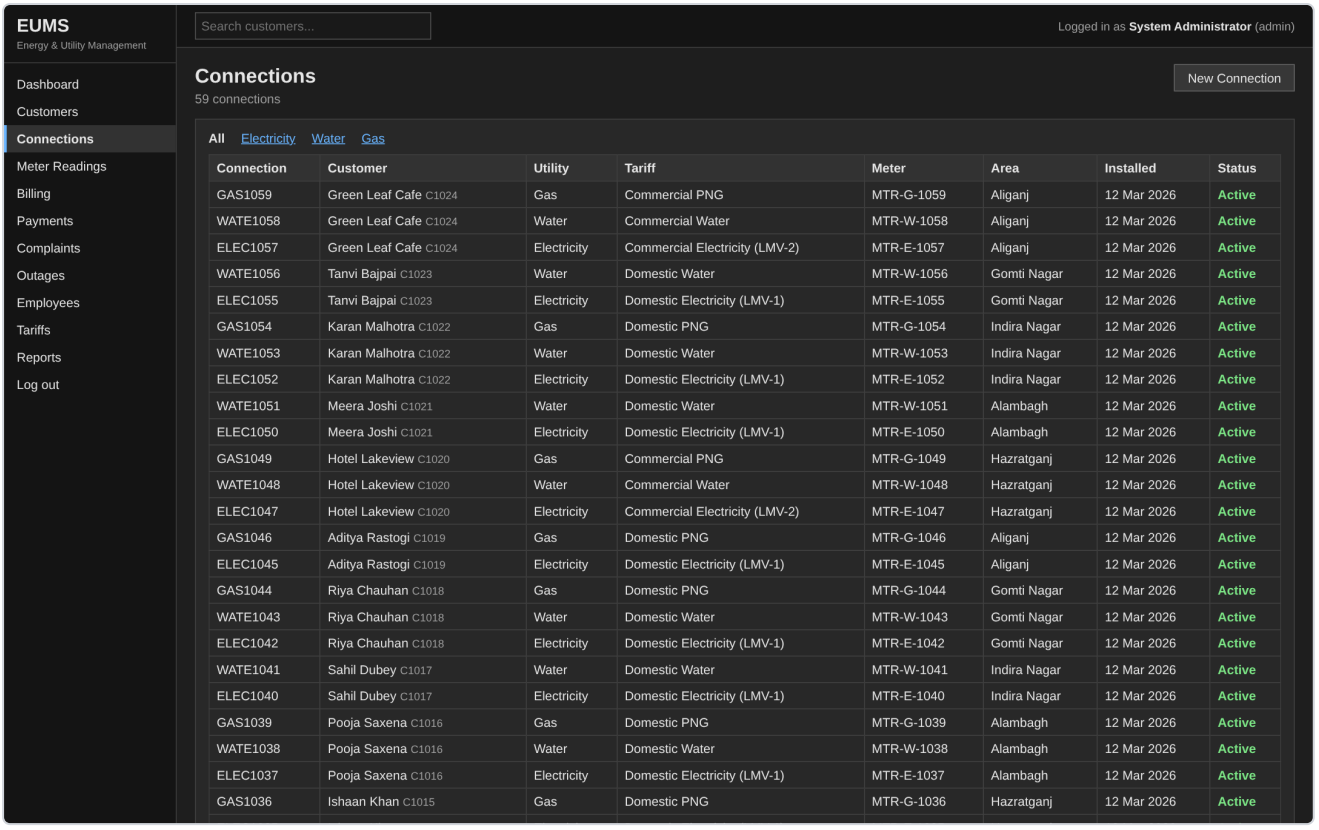

Figure 5: Connections, filterable by utility

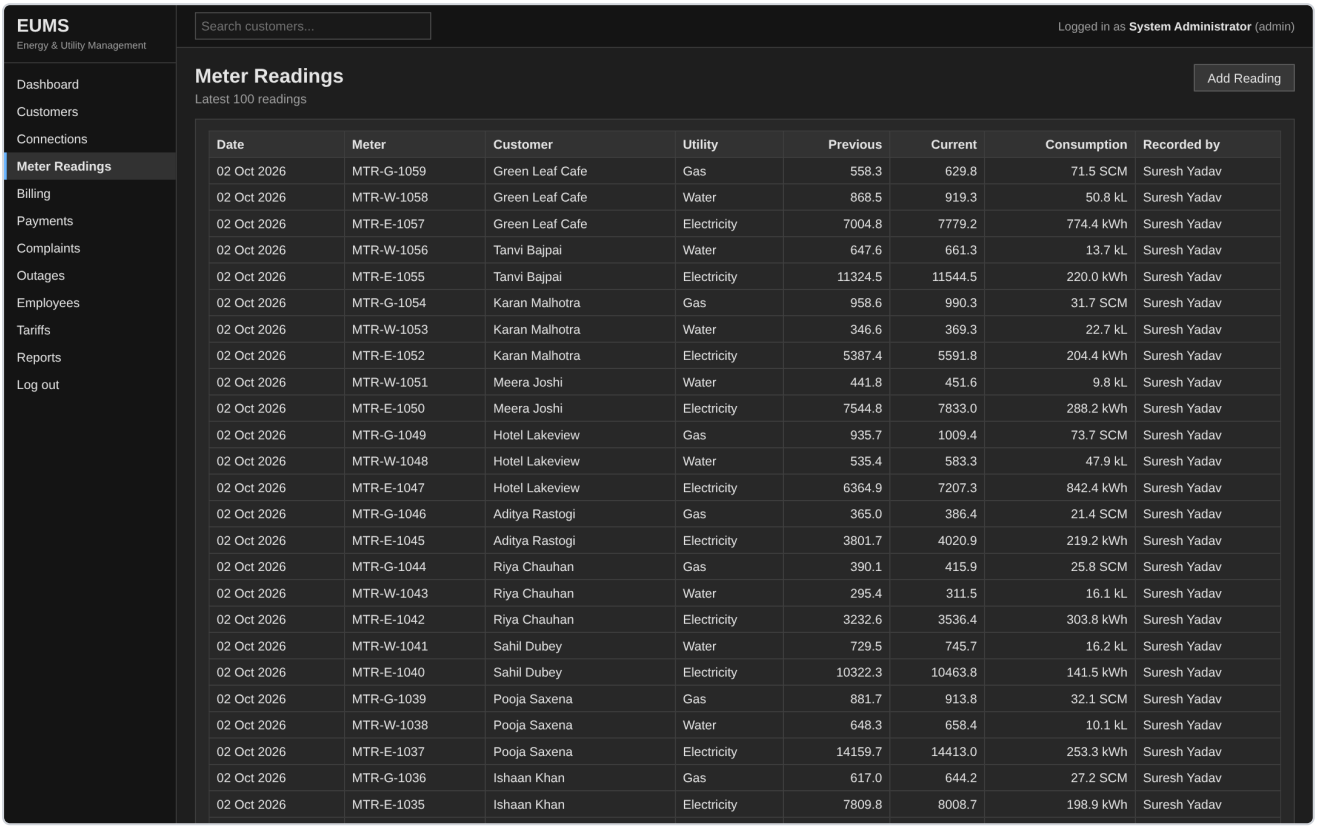

Figure 6: Meter readings list

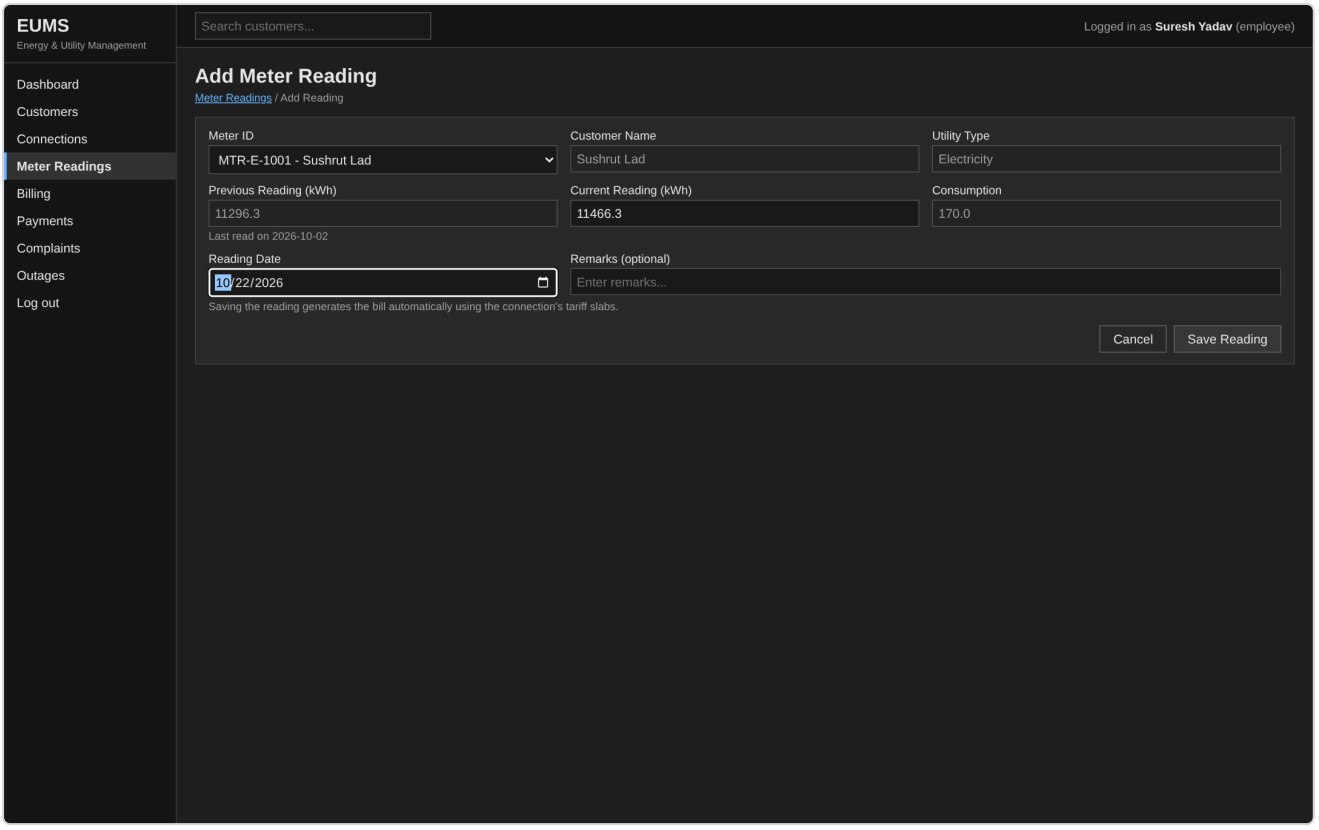

Figure 7: Add meter reading (employee)

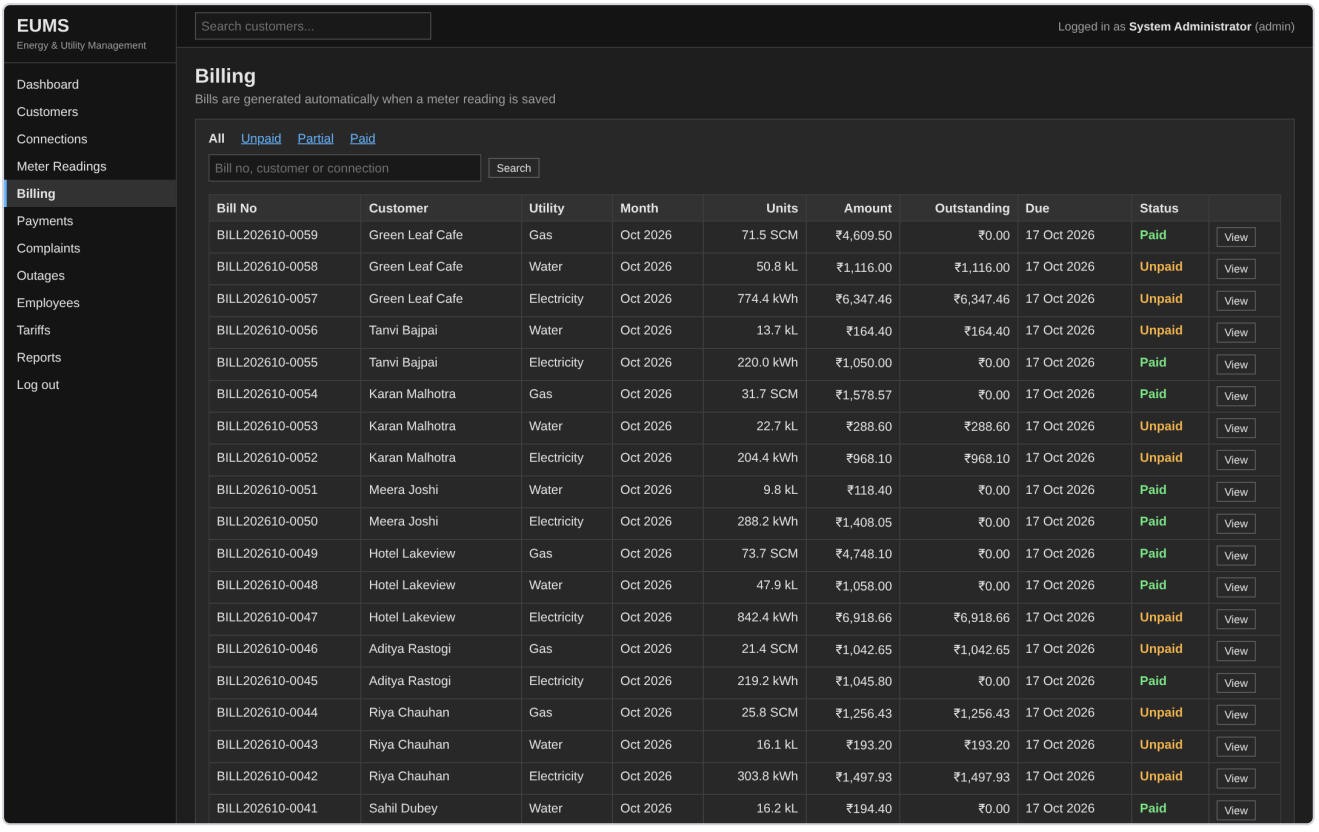

Figure 8: Billing list with status tabs

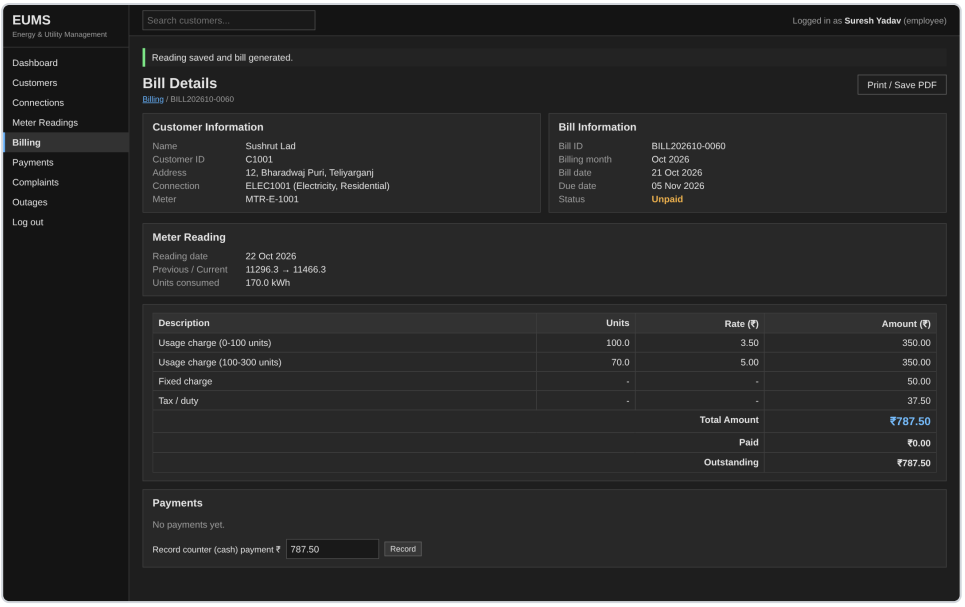

Figure 9: Bill details with slab breakdown and counter payment

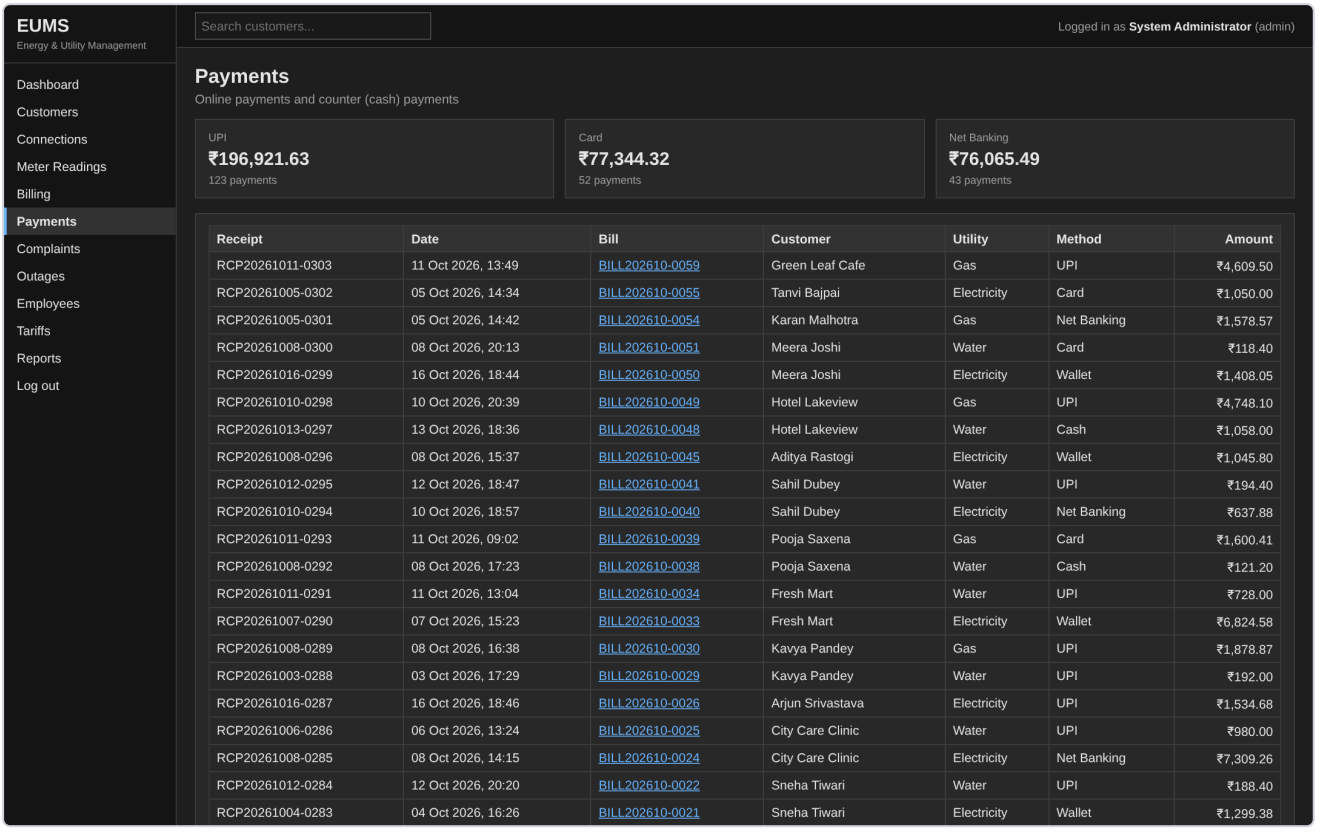

Figure 10: Payments with totals by method
